

PRESS RELEASE

Institute of Diplomacy and Foreign Relations
Ministry of Foreign Affairs, Malaysia and
United Nations Association Malaysia

FOR IMMEDIATE RELEASE

IDFR-UNAM Workshop on Climate Change “*Malaysia’s Climate Change Strategies: Plan of Action*”

The Institute of Diplomacy and Foreign Relations (IDFR), Ministry of Foreign Affairs, Malaysia in collaboration with the United Nations Association Malaysia (UNAM) is organizing a Workshop on Climate Change titled “*Malaysia’s Climate Change Strategies: Plan of Action*” on **Wednesday, 10 September 2014** at the **Auditorium, IDFR, Jalan Wisma Putra, Kuala Lumpur**.

Climate Change has been identified as a serious threat to our planet and is so relevant and important to be taken into consideration for concerted action by all countries. It is a priority agenda for discussion in the upcoming 69th Session of the United Nations General Assembly where a climate summit will be held on 23rd September 2014.

It is therefore timely that UNAM and IDFR organize the workshop as a platform for the exchange of information, knowledge and insights on climate change issues impacting areas of concern such as sustainable development, natural resources, carbon emission, urbanisation, indigenous communities and the environment and other related topics.

The report and proceedings of the workshop will be submitted to the relevant government agencies to be incorporated in Malaysia’s Plan of Action to be tabled at the UN Climate Summit.

Members of the diplomatic corps, UNAM, UN Clubs, Youth Associations, public and private universities and relevant NGOs are invited to the workshop.
